**E-Mail: plc@prolifecorner.com or go to our website at:
www.prolifecorner.com to get a file copy of this document so you can cut and paste the quotes into your church bulletin.**

Please note: This year, 2007, will be our last bulk mailing of the PLC. Next year we encourage all to e-mail and request your copy or go to our website and download a copy for the year 2008. We are aware that some people are not on the internet, for those people we will provide free copies. All they have to do is write to the above address or call our telephone number and we will be happy to provide hard copies by US mail. Thank you for using the PLC. May God bless you for all you do for His unborn babies. SCRL

January 7- We know that all babies are made in God's image and likeness; therefore they are worthy of our love. Just because some people say that unborn babies are "less than human" doesn't make it so. If we don't speak out in defense of the unborn, who will?

January 14- Thousands of unborn babies are slaughtered each day in their mother's womb. With over 48,000,000 abortions performed in the US since 1973 we are missing a generation. The oldest of these would now be over 30 years of age and many would have children of their own. The true scale of this loss is unparalleled.

January 21- Abortion is an unspeakable atrocity. Actually seeing what an abortion does is something that we need to experience in order to fully grasp the reality of what happens to the baby. Know that our tax dollars help fund this gruesome procedure as babies are killed both inside and outside the womb, i.e. partial birth abortion. The world will not reject abortion until it sees abortion; likewise the world will not stop funding abortion until it is made to be ashamed of it.

January 28- What can I do to be more involved and better informed on life issues? Knowledge is the answer. There are many good sites on the internet, such as www.prolifecorner.com and www.hli.org and www.ildi.org and www.priestsforlife.org. They, in turn, will have links to other pro-family/pro-life sites. Then take this new found knowledge and turn it into Christ-like action.

February 4- Could we respect a person who says, "Personally I am in favor of God but I won't follow the Ten Commandments?" Of course not! Then why do we tolerate politicians who say, "Personally I am not in favor of abortion" but then act and vote in favor of abortion? It's serpentine semantics; that's political and moral schizophrenia. Don't ever fall for it.

February 11- It is never too late to get involved in the pro-life movement. There is no greater battle to be fought and no greater cause to get involved in than to stop the killing of our innocent little babies. Abortion is happening on our watch and we know it. The question is then, what are we doing to end the killing? Get involved today by praying, donating and /or joining a local pro-life group.

February 18- Abortion! It's time to get busy! We can stop the killing if we really want to. There are more people of faith than people without faith. We simply have to put our faith into practice. If we don't, for that too, we will have to give an account. The question is what am I doing to end abortion?

February 25- Day in and day out abortion mills grind out their filthy trade while most people go about their lives without any concern, out of sight, out of mind; yet this is happening in our moment of time, right in our communities. Worldwide there has never been anything in history to equal the number of innocent lives taken since 1973 due to "legalized" abortion!

March 4- Abortion is approaching a billion-dollar business in the US alone. Those who practice it seem to have little problem justifying what they do. Sadly, we people of faith enable this killing by our unwillingness to stand up for our own core beliefs. Our silence is deafening! Join pro-life today.

March 11- Instead of "sex education" we should be teaching sexual abstinence. In the 1950's there were mainly two sexually transmitted diseases with which to be concerned. We now have countless sexually transmitted diseases (STD), many of which are deadly. As a result of this promiscuity, the surgical abortion death toll has climbed to 48,000,000 since 1973!

March 18- Regarding abortion: Don't we know? Don't we care? Are we doing enough to stop the killing? We must speak out for the voiceless and defenseless. It's time to get busy. We can stop this killing if we really want. We simply have to put our faith into Christ-like action and if we don't, for that too, we will have to give an account.

March 25- The pro-life movement tends to think that it is in a battle to save babies. This is true, but the greater battle here is that of saving God's plan for our future. It is a battle that must involve every soul on this planet. It rages with every single decision to abort or to accept God's plan by allowing His babies to be born.

April 1- As the rate of abortion increased, so did child abuse.... Indeed it is a vicious cycle. Research shows that parents who have been involved in abortions are more likely to abuse and neglect their other children. Also, mothers and fathers who were abused as children are more likely to abort their baby. If we end abortion, we can drastically reduce other forms of violence as well as the killing.

April 8- It amounts to child abuse for someone to take a pregnant teenager for an abortion. It can give her an increased risk of breast cancer in her lifetime; if she has a family history of breast cancer, it can nearly guarantee this. As parents, we need to be informed of this abortion/breast cancer risk so we can protect our daughters from possible health risks.

April 15- Even before we were conceived, God loved us. There was no performance test required. Thusly, although we may not know who an unborn baby is or will be, God does. He sees the baby's virtues, talents and future accomplishments. Our future as a nation depends on allowing each baby that God gives us to be born so they can be allowed to be a part of His plan.

April 22- Our nation celebrates financial abundance but we are in a moral recession. We are obsessed with safety, but have made the womb a place of great danger. We have prolonged life for the elderly, but we accept the most barbaric forms of killing the unborn. We have treated the blessings of parenthood as a burden. We have rejected the gift of life and have called this a "right to choose." God help and forgive us!

April 29- We are living on borrowed time. A nation is not strong when it destroys its weakest members. Americans demand rights rather than righteousness. Over the past three decades, Americans have aborted over 48,000,000 babies. We have allowed an entire industry of killing clinics (abortion mills) to rise in our midst. America, the time to repent is now.

May 6- Even our language has been debased. Unborn infants have become "unintended products of conception." Abortuaries are called "reproductive health centers." Contraceptives on health plans are claimed as a new kind of immunization, effectively calling children a disease! Our euphemisms display our moral cowardice, decay our society, and corrode our conscience. We must end abortion; our future depends on it!

May 13- If you were born after 1973, congratulations! You are a Death Roe survivor. This Mother's Day thank God and your mother for giving you life.

May 20- Ultrasounds reveal the lies of those who claim that the baby is not a person, not a human being. This is the time for a new abolitionism, the time to abolish the horrible practice of abortion. We must insist for the right to life, for the born and the unborn.

May 27- Did you know that millions of unsuspecting Americans, many of whom are opposed to abortion, use oral contraceptives that in reality are abortifacients and that the user can undergo a chemical abortion without their knowledge?

June 3- We all have heard of the Greatest Generation (WWII), the Baby Boomers, etc. Because of the 1973 Roe v Wade decision we've lost a generation due to legalized abortion. They truly are the Missing generation; 48,000,000 souls who will never walk this earth or feel the love of another human being. What a tremendous loss to our nation.

June 10- If we stood before God today and He asked us to render an account of what we had done to save His unborn babies from being aborted what would we say? If our answer would be "Nothing, Lord", then there is still time to join the pro-life movement and become God's instruments to bring an end to abortion. Your job may be something as simple as praying but please – *do something!*

June 17- If the 87% of the population who claim to be people of faith, and the 53% of the population who claim to be pro-life would put their faith into action then abortion can become a thing of the past. We can stop this holocaust. We are God's instruments placed here on Earth at this moment in time to speak out for His babies who cannot speak for nor defend themselves. Get involved today.

June 24- If we ever forget that we're One Nation Under God, then we will be a nation gone under. The world is a dangerous place to live, not because of the people who are evil, but because of the people who don't do anything about it. Abortion is the defining issue not only personally but also socially. Poverty can be addressed incrementally, but the death of a baby is quite final.

July 1- A law that contradicts, overturns, and subverts the natural law and divine law can not be authentic law. The so-called law that a woman has a right to an abortion is not authentic law, that's a subversion of the law. It is a license to kill. Like Dred Scott was an immoral law and had to be reversed, so too, legalized abortion is an immoral law and must be reversed as well.

July 8- A nation that rejects God will embrace death. We believe that life is sacred because God created human beings in His own image and likeness. A nation that rejects God will inevitably devalue life and embrace death however it is disguised i.e. abortion and euthanasia. A nation that accepts this practice is a nation without a conscience.

July 15- We can end abortion when we help the parents to trust that the baby is not an obstacle to their plans. Rather, both child and parents find their fulfillment in giving themselves to each other in love and thereby truly becoming a family.

July 22- When our tax dollars are spent on abortion organizations, it empowers the child abusers. Make no mistake; Planned Parenthood, both here and overseas, is Child Abuse Incorporated. Planned Parenthood is the largest and most powerful pro-abortion, anti-life, anti-family force in the U.S. and internationally.

July 29- People must be told that abortion takes the life of a baby that God sent into the world. It is right for us to warn those who would take a life that endangers their soul. Pray for those who have had abortions. May they find God's love and forgiveness.

August 5- Is human cloning necessary for all types of stem cell research? No. Adult stem cell research and therapy can be conducted using adult stem cells from a variety of sources including adult tissue, umbilical cord blood, etc. There is never a need to create and destroy cloned human embryos.

August 12- In the past 30 years there have been 689 criminals executed in the US. That's an average of 23 executions per year. By contrast, 23 babies die every 8 minutes in America due to state sponsored executions called legalized abortion. That's one baby who dies every 20 seconds year in and year out. We know what murderers did to deserve their punishment. The baby's only "crime" was that she existed.

August 19- The moral demise of a nation always precedes the ultimate demise of a nation. We are in a moral decay that grows worse each day. We have had tens of millions of abortions year after year, partial birth abortions and euthanasia, and some wonder why the world is in such turmoil.

August 26- Worldwide the number one cause of human death is not hunger, cancer, floods, hurricanes, or even war; its abortion! No disease or natural disaster can match the loss to the human race that abortion causes. That does not take into account the mental and physical damage to the mothers. Abortion kills babies and consciences.

September 2- Abortion providers have admitted that when people are praying and witnessing in front of the abortion mill, 30% of their appointments don't show up. Many women have admitted that if someone would have been praying outside the day they had their abortion, they would never have aborted. It is time to go to an abortion mill to be a witness and pray that babies will be saved. If not us, who? If not now, when?

September 9- At times abortion has been called a moral issue, political issue, and civil rights issue. Have you ever thought that it could be considered a homeland security issue? If the government cannot protect the most helpless baby in the womb from terrorists (abortionists) how can we expect them to protect the rest of the nation from terrorists?

September 16- What if a political candidate supported everything that is important to you but differed with you on just one issue? Perhaps he/she believes that people of a certain race have no place in society and should be killed. Would you still vote for him? Of course not! Welcome to the world of single issue voting. When a candidate supports abortion he/she supports the legal murder of innocent babies. Simply don't vote for that person.

September 23- When medical textbooks and court testimonies use the word dismemberment to describe what is done to an unborn baby how then is this not child abuse? Then why is it called a "right to choose"? Rather it should be called the ultimate child abuse. Abuse that always concludes in a fatality....

September 30- The evidence is clear that abortion harms not only the mental and physical health of women, but also their role in society. Rather than serving as a fundamental "right" that affirms women's equality, legalized abortion goes against the inherent dignity of women and always brings death to her baby.

October 7- Once a year we have a Life Chain or a pro-life Sunday to pray for an end to abortion and that's good; but it's not enough. Worldwide, every moment of every day, seven days a week, a baby dies to abortion. The killing never stops. As people of God we must pray and work unceasingly in order to stop abortion.

October 14- Twenty-nine reports in the US have indicated a link between smoking and cancer. Cigarette packages are required to carry a warning of the dangers of smoking. By contrast, 13 out of 15 reports in the US show a link between abortion and breast cancer. Women should have the right to be informed of the possible danger to their health by the increased risk of cancer, just as smokers have been warned.

October 21- Abortion is often called "reproductive choice". It is a euphemism that helps people rationalize their "choice" to abort their baby. They seem to feel they can create a life and then, for whatever reason, destroy that life. The moral fiber of our nation is eroding as a result of this immoral "choice."

October 28- When can abortion kill twice? First, when the baby is aborted; second when the mother has a greater risk of breast cancer. There can be many causes for breast cancer, but 13 out of 15 reports in the USA shows an abortion/breast cancer link (ABC). Pray for all who are contemplating abortion that they may choose life; not only for the life of the baby but possibly the life of the mother.

November 4- We must not be deterred by those who warn us against "single issue politics" because abortion is the singular issue of our times, the most significant and urgent issue before our nation. We must pray that the time will come when Roe v Wade will be remembered only as a horrible reminder of what we as a nation once accepted.

November 11- Looking back we deplore the human sacrifice of the Aztecs; while at the same time far too many Christians give silent approval as our nation's babies are sacrificed in killing rooms called abortion clinics. Abortion is human sacrifice on the altar of "choice." How dare we call ourselves a civilized nation!

November 18- If we believe in God, then we must believe that God has a plan for every soul He sends into the world. When our government allows legal abortion, we destroy God's plan for our future as a nation and the world.

November 25- What parent would allow their teenager to have a serious surgery without their consent? What if this surgery could cause possible death, anxiety, suicidal thoughts, and depression? Of course they would not allow this. Yet, this is what can happen to a teenager who has an abortion, with or without parental consent. Why are we allowing abortion, which can do mental and physical harm to our young? Pray to end abortion.

December 2- History will recall that on our watch, tens of millions of innocent babies were ripped apart, poisoned or burned in their mother's womb, with hardly a peep from our society. With God's help we can stop this American holocaust.

December 9- Once someone chooses abortion, anything goes; because if one can rationalize the killing of a baby in the womb then they have lost their moral compass and can do any evil. Any country that accepts abortion is not teaching its people to love but to use violence to get what they want. This is why the greatest destroyer of love and peace in this country is abortion.

December 16- We all remember the movie It's A Wonderful Life in which the hero, George Bailey, was contemplating suicide until his guardian angel showed him what a negative effect his death would have on his family and community. If God would show us how the loss of thousands of babies to surgical abortion each day is having such a devastating effect on our future as a nation, legalized abortion would cease to exist.

December 23- America, hear this! Abortion not only kills babies, but it is killing the very soul of our country. Knowing that 48,000,000 babies have already died from surgical abortions in the US, we oftentimes get discouraged. We must keep in mind the words of the old Christmas Carol "God is not dead nor does He sleep; the wrong shall fail, the right prevail with peace on earth, good will to men." Merry Christmas to all.

December 30- Not since the great flood has mankind been so evil. The sin of abortion is a worldwide phenomenon. Worldwide, 46,000,000 times a year, God sends a baby into this world to fulfill His plan only to have that gift of life rejected. How great must be His anger! The world must repent and stop offending God by abortion. Our future depends on it.
